- Taught *Intro to Programming* labs
- Currently teaching *Object-Oriented Programming* labs

October 2020 - Present

SKILLS

Programming: Java, SQL, C++, HTML/CSS, JavaScript

Software & Tools: Linux, Git, Heroku

PROJECTS

- ***Authentication Server***

Final course project for the course Modern Java Technologies at FMI.

Utilized the Command design pattern to create a CLI-based server and client with users and sessions. Created a simple Audit logger.

Used Java NIO to create an easily scalable server.

Used JUnit and Mockito to unit test commands.
